

Page numbers in bold indicate tables. Page numbers followed by n indicate notes.

absoluteness/sufficiency, 51
abstraction, 6, 93, 109, 112
academic collaborations, 71, 265–66, 267
academic decentralization: Ecuador, contradictions of international academic publishing in, 155, 156, 160–62; examples of, 164–71; geographically, 156–64; hierarchies, 159, 175n10; Indian academic institutions, internationalization in, 156–59; IstanbulLab, 165–67; Kaleidos, 167–69; Kenya, coloniality in academia, 162–64; in Latin America, 175n11; money in making of academia, 160–62; overview, 153–56; remooring, 171–73. *see also* geographically decentralized academia
Academic Forum, BRICS, 265–66
academic hierarchization, 63, 143, 159, 175n10
academic knowledge, 155, 164–65, 261, 263, 267–68, 272, 275
Ação Coletiva de Comida Verdade (Collective Action for Real Food), 199
access to open participation, 120
accreditation of hospitals, 225
actor network theory, 223
acupuncture, 231, 236n16; electronic, 227, 228; points, 229
adepts, 117
African university, decolonizing, 169–71
agency, epistemic, 7, 185
Agostini National Park, 245
agricultural modernization agenda, 189
agri-extension services, Brazil, 193–95
agrobiodiversity, 195
agroecological alternatives, 191–93
agroecological innovation: Brazil's EcoSol-agroecology agenda as collective capacities, 195–205; EcoSol, decentralizing knowledge, 187–89; overview, 184–87; rival agrifood models, 189–95
Agrupación Antukulef, 243
Agrupación Aysén Reserva de Vida, 243
Agrupación de Turismo Chile Chico, 243
Agrupación Puro Ibáñez, 243
Ahayu:da, 47, 48
AIDS treatment activism, 97–99, 103
Akamai Lab in Nairobi, 163
Alcoff, Linda Martin, 78, 94, 184
alerce trees (*Fitzroya cupressoides*), 247
Alianza Carbón, 243
Alta hydroelectric dam, 146
Amazonian peoples, 39–44
American Chemical Society, 175n13
Antiquity (journal), 78
antiscience museum, 46

Anyumba, Henry Owuor, 169–70
appropriation, 114, 115
aquaculture: in Argentina, 245–46; in Chile, 244–45
Araucaria araucana, 247
Argentina: climate change turn, 253; fire and megafire risks to biodiversity and conservation, 247–48; mining issue in, 243–44; salmon farming and contamination, 245–46; scientific capacities, 249–50; socioterritorial turn in scientific concerns, 251, 252; STI policy turn, 253, 254
aromatherapy, 227, 228, 232
artful expression, 124
Articulação Nacional de Agroecologia (ANA), 194–95, 196, 197
artifacts collection, 44–49
art therapy, 227, 236n13
artworks to protest, 146
assemblages, 109, 240, 263; heterogeneity of, 83–84; institutional, 118
Assessoria e Serviços a Projetos em Agricultura Alternativa (AS-PTA), 197
assistencialista approach, 188
Association of Cattlemen, 243
Atacama Desert, Chile, infrastructure development in, 79–83
Atacama Large Millimeter/submillimeter Array (ALMA), 80
authority: of dominant lines of inquiry, 116–17; epistemic, 74, 115; and kinds of knowing, 114–15; and margins, 109–10, 114
Autoridad Interjurisdiccional de las Cuencas (AIC), 257n6
Ayurveda, 236n12

Banco do Brasil, 198
Bayer, 101
beekeeper knowledge making, 99–102, 103
Beijing Declaration, 265
Bilgrami, Akeel, 34
binaries, 112–13, 144; challenging, 123; nature/culture metaphysics, **146**, 147
Bingham, Hiram, 76–77, 78
biodemocracy, 40
biodiversity: fire and megafire risks to, 246–48; of native plants, 195
Bioeconomia Brasil Sociobiodiversidade, 204
bioeconomy concept, 204–5
biologically based treatments, 236n12
biomedical device for physical therapy, 231
biomedicine in hospice practice, decentralizing, 226–30
biopiracy, 32; case study: neem tree, 42–44; colonialism through patent rights, 39, 40–42; core concepts, 40
bioprospecting, 32, 42
Biotechnology and Biomedicine working group, 271
birget, 136–37
#BlackLivesMatter, **10**
